SCHEDULE

Lessee: BRITISH COLUMBIA HYDRO AND POWER AUTHORITY.

Airport: Dawson Creek, B.C.

Lease: *Order in Council*
P.C. 1967-1323 dated June 29, 1967, authorized the grant of a lease to the British Columbia Hydro and Power Authority covering the right and privilege to erect, maintain and operate a power line at Dawson Creek Airport for a period of 20 years commencing May 1, 1967, and thereafter from year to year.

Authority: *Order in Council*
To amend P.C. 1967-1323 by changing the term to read 20 years commencing May 1, 1967, with provision for renewal of a second term of 20 years.

Also to include provision for payment of compensation by the department to the British Columbia Hydro and Power Authority. The relevant wording from clause 8 of the lease is as follows: "that in the event of any action being required to be taken pursuant to this clause, the Lessee shall assume and be responsible for that portion, only, of the cost of removal or the cost of re-erection, as the case may be, of the said installations which represents five per cent (5%) of such cost multiplied by the number of years which have elapsed from the date of commencement of this lease to the date of such removal or re-erection, and the Lessor will assume and pay for the balance of such costs, all as determined to the satisfaction of the Director."

Remarks: Since the electrical service was developed to serve airport needs, the company has requested that it be paid compensation should the service line require removal or relocation during the first 20 years of the lease. The alternative suggested by B.C. Hydro is that the department purchase the line. This suggestion is not preferred since the department's policy is to obtain services from utility companies whenever possible.

PRIVY COUNCIL

of the Privy Council, approved by His Excellency the Governor
General on the 25th January, 1968.

The Committee of the Privy Council have had
before them a report from the Minister of Transport and
the Minister of Finance, representing:

That interest bearing loans have been made by
the Minister of Finance to The St. Lawrence Seaway Authority
to finance expenditures in respect of the Montreal-Lake
Ontario Section of the Seaway pursuant to the St. Lawrence
Seaway Authority Act and various Appropriation Acts in accord-
ance with terms and conditions approved by the Governor in
Council;

That the Orders in Council approving the terms
and conditions of these loans were as set out in the attached
Appendix "A";

That, by Order in Council P.C. 1967-100 of January
19, 1967, the Governor in Council approved changes in the
terms of repayment of the loans made to The St. Lawrence
Seaway Authority in accordance with the Orders in Council set
out in Appendix "A" to the effect that the principal sum of
the said loans and all interest payable by the Authority up
to December 31, 1967, should be deferred for payment together
with interest over a forty-two year period, the first payment
to be made on December 31, 1968; and

That, to the extent of its ability to do so the
Authority has made, and will continue to make, payments each
year on account of its interest liability but, pending a
further review of tolls, does not expect to be able to meet
its obligations with respect to the payment of principal and
interest as set forth in Appendix "B" to Order in Council
P.C. 1967-100 of January 19, 1967, and it is therefore deemed
required that the terms and conditions with respect to the
aforesaid obligations be amended.

- 2 -

The Committee, therefore, on the recommendation of the Minister of Transport and the Minister of Finance, advise that Your Excellency may be pleased to approve that the terms of repayment of the interest bearing loans made to The St. Lawrence Seaway Authority in respect of the Montreal-Lake Ontario Section of the Seaway in accordance with Order in Council P.C. 1967-100 of January 19, 1967, be revised in accordance with the attached Appendix "B".

\$1,774.40 Tax

\$334.49 Penalty

This candy company had been operating spasmodically for several years and during February, 1967, made a proposal under the Bankruptcy Act. A claim for \$8,108.89 was filed representing \$7,774.40 tax and \$334.49 penalty. The administration of the proposal became complicated because equipment used by the Company was, in part, owned by the president. The president of the Company and the trustee determined that to get reasonable value from the assets, the business should be sold as a going concern. While the proposal provided for payment of the Department's claim in full, the president, anxious to dispose of the Department's claim has raised, as a personal loan, the amount of \$6,000.00, which he has offered as settlement in full.

The equipment of the company is not in regular use and it is obvious that settlement could be delayed indefinitely. Also, the situation could deteriorate rapidly, possibly ending in bankruptcy, in which event, our recovery would be less than the amount offered. It is recommended that the amount of \$6,000.00 be accepted as full settlement with remission of the balance of \$1,774.40 tax and \$334.49 penalty.

D.E.M. Mfg. Co.,
Montreal, P.Q.

\$1,404.38 Tax

\$1,410.44 Penalty

The subject company operated as a manufacturer of ladies' hats until 1962, with Hyman Fallen as sole proprietor. Hats were sold untrimmed, and were to be embellished as desired by the purchasers.

An audit conducted in 1963 established arrears of \$3,154.08. This assessment was based on sales to Standard Hat, a licensed manufacturer of ladies' hats, who had made purchases from D.E.M. No certificate of exemption on these sales could be found in the records of D.E.M., and since no further manufacturing operations were performed by Standard, the Department had no alternative but to hold D.E.M. responsible for the tax.

Mr. Fallen was extremely reluctant to accept the Department's ruling. He was in a strained financial position and was firmly convinced that Standard Hat should be held liable for the tax. He made an unsuccessful attempt to collect the money that he felt should have been properly paid by Standard Hat at the time of purchase.

The Department of Justice instituted proceedings against Fallen and no defence was filed. The action did not get to court because Mr. Fallen, after discussing the matter with the Department of Justice, raised \$1,000.00

and has since made payments which have reduced his indebtedness by a total of \$1,749.70. He requests remission of the remainder.

Mr. Fallen is now 68 years old. He ceased operating his business in 1962, and has been forced to accept employment at a nominal weekly salary.

the Minister of Transport, representing:

That the Corporation of the Town of Smiths Falls
are currently reconstructing and paving a section of Perth
Street between William Street and Hannibal Street within the
Town limits. As the reconstruction included widening of the
existing right-of-way to 66', an extra strip of land had to
be obtained along both sides of the existing road from the
adjoining land owners. It would appear that title to one
small triangular piece of land being part of Lot 2, Concession
4, Township of North Elmsley, Province of Ontario, more par-
ticularly described in the attached Schedule, is in doubt
and it is former Crowned land probably vested in the name of
the Federal Crown;

ment, with the exception of article 9 thereof,
which deal with "public debentures" as defined
in article 27 thereof, should apply to de-

The Committee of the Privy Council have had before them a report from the Minister of Indian Affairs and Northern Development and the Minister of Finance, representing:

That approval in principle was given for loans up to \$5,000,000 to the Government of the Northwest Territories for the construction of housing and office accommodation for the Territorial Administration in Yellowknife;

That with this approval, tenders were called to supply guaranteed rental housing accommodation but those tenders submitted were extremely high. Construction firms in Western Canada were working to capacity with the result that their finances were already extended as far as possible;

That private financing, when available to these firms, was at high interest rates over short term periods, which would have resulted in raising the cost of the rents very substantially;

That to obtain reasonable tenders the Commissioner agreed to loan the contractors second mortgage money up to \$6,000 per housing unit at 7%, the then National Housing Act rate; and

That 30 rental units were required in the 1967/68 fiscal year to house the Territorial staff in Yellowknife.

- 2 -

The Committee, therefore, on the recommendation of the Minister of Indian Affairs and Northern Development and the Minister of Finance, pursuant to section 19D of the Northwest Territories Act, advise that Your Excellency may be pleased to approve the lending of monies by the Minister of Finance, at an interest rate to be determined by the Minister of Finance, in an amount not exceeding in the aggregate \$180,000 to enable the Commissioner of the Northwest Territories to make second mortgage loans in amounts up to \$6,000 per housing unit to contractors, each such loan to bear an interest rate of 7% and to be repayable over twenty-five years.
